If you purchase a new article you will receive a recyclingbonus.
The bonus rate in euros is visible in the recycling symbol.

➔ **Please note!** **Conditions to redeem your Recycling Pass**

**Handle your CBN grinding wheel with care.
It is still worth cash even when the CBN coating has worn out.**

Worn out CBN coatings make the solid steel carrier plate useless for grinding. The carrier plate can be recycled for other applications under certain conditions. This preserves not only resources and the environment, but also your own wallet. When returning your worn-out CBN wheels that can no longer be used in the grinding process, we will provide you in exchange with a credit voucher upon the purchase of a new CBN grinding wheel (regardless of the size and the granularity). For each new purchase (upon the submission of a written order form) 1 wheel can be redeemed by presenting your recycling pass. Therefore, store your recycling pass with care.

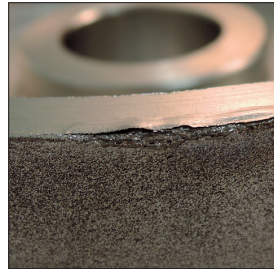

**Wheels can be recycled, if they comply with the following criteria.
Therefore, use your CBN grinding wheel with care.**

**Grinding wheels that are too heavily damaged are not eligible
for a credit voucher.**

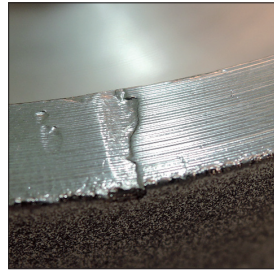

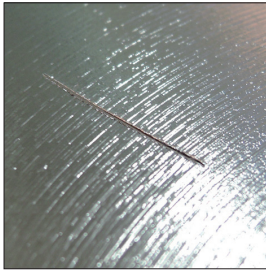

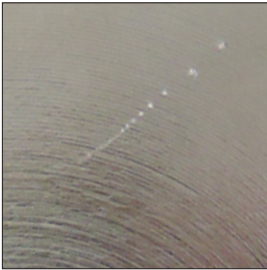

Returns will be refused for any of the following damages that occur after purchase:

- Drill holes, cuts, milling grooves or weld points on the wheel
- Crushed or dented mounting holes
- Subsequently deformed wheels, e.g., rounded or bevelled edges
- Larger dings and deep scratches or dents

Small dings are allowed (see the following examples) and do not impair recycling:

Worn-out, chipped off or scratched CBN coatings on the grinding surface or on the edges.

Small signs of wear (small dings, scratches).

Please note!
